

Nevada Clean Indoor Air Act

NCIAA - Fast Facts

TIMELINE

2006 November 7 - NCIAA was passed by a majority of voters

2006 December 8 - NCIAA took effect

2011 State legislators made substantial changes to NCIAA during the 2011 session, including allowing smoking to resume in stand-alone bars that do not allow minors

2019 State legislators update NCIAA to include vapor products or e-cigarettes

WHAT DOES NCIAA DO?

NCIAA protects children and adults from secondhand cigarette smoke and secondhand aerosol from electronic vaping products in most indoor public places and indoor places of employment.

WHO IS LEFT BEHIND IN THE SMOKE?

Those who work in or visit the following public places:

- Areas of casinos where minors are prohibited
- Stand-alone bars, taverns, and saloons where minors are prohibited or that don't offer food service
- Retail tobacco stores
- Strip clubs or brothels
- Convention floors at tobacco-related trade shows

CREATING CLEAN AIR FOR MORE NEVADANS

These establishments or venues may choose to implement voluntary "No Smoking/No Vaping" policies. But public health experts in Nevada and across the U.S. agree that comprehensive state or local policies are the best and only way to ensure health equity for all employees in indoor workplaces. State law allows local jurisdictions to enact stricter protections than those at the state level.

For more information on the smoking and tobacco laws in Nevada, refer to Nevada Revised Statute (NRS) 202.2483, and the Nevada Clean Indoor Air Act.

5250 Neil Rd., Suite 203
Reno, NV 89502
TobaccoFreeNV.org

The mission of the Nevada Tobacco Prevention Coalition is to improve the health of all Nevadans by reducing the burden of tobacco use and nicotine addiction.
